margiotta*

It is the position of the New York Arts Council, that, there is no higher artistic expression than when God paints His life, nature and ability on the human spirit, then through that individual reveals Himself to the world. That is art in its highest form. The New York Arts Council promotes artistic expression consistent with its objectives.

We have learned a few things over the years of producing these concerts. Perhaps the greatest lesson is that the world already knows it is messed up. We don't have to beat it down. Nor, do we have to beat around the bush and compromise our message. The world is looking to us for the answers. Our job is to point them to the God of measureless love and our savior Jesus Christ who brings us into vital contact with Him.

We have seen some awesome things here. Double rainbow pillars straight up and down over the ocean; hurricanes and tropical storms that have abruptly turned away. Even better, consider the beach to be a place, where you can come into intimate contact with His measureless love and power at these concerts. He longs to be with you. We welcome Him.

*New York Arts Council
Mitch Paulsen, Executive Director*

Saturday, August 29 8 PM
West Pool Bandshell

AL Garvin & M2C

In the book of Acts, there were 3,000 and 5,000 instantly added as a result of believers getting lit up in the upper room, then taking what they got to the streets. That is the pattern we are looking at when calling this the "Fire on the Wall Series". Our hunger level for Him is rising. We want more and will not settle for less. We know He will answer a cry with fire when proper sacrifice is presented. Come to His beach on His Island. Reach out to Him and get something to reach out to them. They said "silver and gold have I none"... but they had something. We want what they had!
